Few Words from the Leaders -

Trimurty since the very year of its inception has been a keen contributor and preserver of both nature and society. Moving forward the company is taking more and more innovative and healthy steps to serve the society better. To the list of beneficiaries are not only included individuals but also god's beautiful creations like birds and plants. As after receiving so much love and confidence from the society, we feel it as our core responsibility to give something back. We hope that through are small-small contributions, we are able to make a difference, a difference that leads to a better future.

Trimurty - A Small Glimpse -

Trimurty Builders is the flagship branch of UKM Group that came into existence in the year 1995. With 21 years of experience in the real estate sector, Trimurty is counted amongst the best in the industry. The company has more than thirty residential and commercial projects in total, amongst which many are completed, few ongoing and others still in the pipeline. As for the hospitality front, we have a five (The Fern) and a three star (The Wall Street) hotel successfully operating under our leadership.

How we contributed towards Building a Better Society –

• Massive Plantation

Trimurty has always been an ambassador of 'The Green', it not only promotes green landscape projects but also overall greenery. In order to prevent soil erosion, improve air quality and enhance overall landscape of the city, we held a rapid plantation exercise wherein we planted and distributed 10000 trees/plants in and around our projects. Also, fruit bearing trees were distributed to neighbouring houses and apartments. The whole idea behind the exercise was to create awareness as to how one simple step can lead towards a better living environment.

• Jaipur Marathon

Always been a promoter of healthy and active lifestyle, Trimurty has time and again participated and sponsored sports events. Recent one being, complete office participation in Jaipur Marathon that took place on 14th February, 2016.

• Golf Tournament

Trimurty Corporate League Tournament at Rambagh Golf Club, was another sport initiative taken by the company on the sports front. The opening of the event, inaugurated by MLA Kailash Verma took place at Trimurty's Ariana on 3rd Jan, 2016 witnessed the presence of 168 golfers with 24 teams.

• Making Literature Fun

There are only a handful people who wholeheartedly appreciate literature and understand the deep treasure it withholds. Giving the residents of Aurum a taste of Shakespeare and his bird watching interest on 23rd April 2016, an event called 'Living with Shakespeare' was organised. It was in a way Trimurty's tribute to the legend on his 400th death anniversary. The entire event was a great success and was enjoyed thoroughly by all. Must have made the 'master of words' happy above!

• Enhancing Workforce Skills

Learning comes with no age bracket and that's why Trimurty takes a note to evolve its employee's knowledge and skill base with time. We have regular department meetups, labour training sessions, product training and regular process knowledge test.

• Creative Exercise

In addition to sports and literature, creativity too has its importance. Motivating the kids at Aurum to draw their hearts out, we organised a drawing competition that was conducted under the guidance of Geeta Global School, a UKM Group initiative.

• Installation of Bird Feeders & Nest Boxes

As mentioned earlier, Trimurty is very particular when it comes to preserving nature and beautiful creators it withholds. Birds being an important part of our eco-system, the company has installed and distributed 2500 bird feeders and nest boxes for sparrow conservation. Also, in our projects like Ariana, Aurum and Kohinoor Garden, bird feeders and nest boxes installation are an important part of the overall layout.

• Recognition & Achievements

For its constant and advantageous efforts, Trimurty was recognised by Shree Kalptaru Sansthan. In an event that took place in March this year, the company was bestowed with 'Vriksha Mitra Samman 2016'.

• What Future Beholds, Planned CSR Initiatives

All the affairs concerned to Corporate Social Responsibility are equally important at Trimurty. Following activities are on company's to-do list through which we believe, we can best contribute to the society :-

- Tree Plantation
- Installation of Bird Feeders & Nest Boxes
- Educating the Underprivileged
- Moving towards Zero Garbage Society, by following Waste Management Principles.
